Below is a summary of potential COI situations disclosed by Directors and Key Senior Management, and measures taken to mitigate thereon:

- (1) Y. Bhg. Tan Sri Cheng Heng Jem (“TSWC”), the Managing Director of the Company, has substantial interest in the Company and is deemed to be interested in the subsidiaries of the Company. He also has interest in companies which conduct similar businesses with the Group in the following areas where potential COI may arise:

Business of the Group	Nature and Extent of Interest	Potential COI and Measures taken to mitigate
Retail businesses, e.g. cosmetic and related products, fashionable goods, food and beverage, etc. and operation of department stores.	<ul style="list-style-type: none"> • TSWC is the Chairman and a substantial shareholder of Lion Posim Berhad, the holding company of a company involved in beauty and fashion products (“B&F Company”). • TSWC’s daughters, Ms Cheng Hui Yen, Natalie and Ms Cheng Hui Ya, Serena are directors of the B&F Company. 	<p>The B&F Company specialises in beauty and fashion products. This affiliation raises a potential COI, given the possibility of competition in the supply of beauty and fashion products within Parkson stores, particularly those offered on consignment.</p> <p>To mitigate this risk, the Group has established measures to enhance transparency including mandating disclosures and requiring approvals for transactions involving related parties.</p>

This arrangement may give rise to potential COI, particularly regarding the ability to secure favourable business terms within the store.</p> <p>To address this concern, all business agreements were subject to review and approval by an independent authorised personnel member to ensure compliance with stringent governance protocols, thereby mitigating the risk of any potential COI.</p> <p>Nevertheless, the F&B Company had ceased operations in November 2025.</p>

- Reviewed the key risks as reported by the RMTs in their Corporate Risk Scorecards across the wide spectrum of risk facing the businesses and operations which included strategic risk, business risk, financial risk and operational risk. The Audit Committee provided comments on the adequacy and effectiveness of controls and/or management actions identified and/or implemented by the OCs in addressing the identified risks.

Reviewed the renewal of Shareholders’ Mandate for recurrent related party transactions of a revenue or trading nature for Shareholders’ approval to undertake transactions which are recurrent, of a revenue or trading nature and which are necessary for the day-to-day operations of the Group with related parties (“RRPTs”).

The Audit Committee reviewed the review procedures and had opined that they were sufficient to ensure that the RRPTs were not more favourable to the related parties than those generally available to the public and were not to the detriment of the minority shareholders and that the Group had in place adequate procedures and processes to monitor, track and identify RRPTs in a timely and orderly manner, and such procedures and processes were reviewed on a yearly basis or whenever the need arose.

INTERNAL AUDIT FUNCTION

The Internal Audit Function is undertaken by the Group Management Audit Department (“GMA Department”) and is independent from Management of the Company and the function which it audits. Its principal activity is to perform regular and systematic reviews of the system of internal control so as to provide reasonable assurance that such system continues to operate satisfactorily and effectively.

As the position of the Group Chief Internal Auditor was vacant during the financial year, a Senior Manager from the GMA Department was carrying out relevant internal audit functions and overseeing audit assignments. Mr Tan Chee Hooi was appointed by the Audit Committee as the Group Chief Internal Auditor in January 2026. Mr Tan is a Certified Internal Auditor and a Professional Member of The Institute of Internal Auditors Malaysia. He holds a Master of Business Administration and a Bachelor’s Degree in Mechanical Engineering, and has over 17 years of working experience, including more than 10 years in internal audit and business process analysis across industries such as retail, manufacturing, property development, hospitality, and fast-moving consumer goods. As part of his working experience, he was with KPMG Malaysia as an Associate Director, where he further strengthened his exposure to governance, risk management and compliance practices.

The purpose, authority and responsibility of the Internal Audit Function as well as the nature of the assurance activities provided by the function are articulated in the Internal Audit Charter approved by the Audit Committee. The Audit Committee is of the opinion that the Internal Audit Function is appropriate to its size and the nature and scope of its activities.

In discharging its function, the GMA Department adopts the *International Standards for the Professional Practice of Internal Auditing* as well as established auditing guidelines to enhance its competency and proficiency.

A risk-based audit plan is tabled to the Audit Committee for approval on an annual basis. The audit plan covers key operational and financial activities that are significant to the overall performance of the Group and is developed to ensure adequate coverage on a regular basis. Key risk areas are continuously identified and prioritised to ascertain the scope of the audit activities through the adoption by the operation management of the RMIC-SAQ, the Corporate Performance Scorecard and the Corporate Risk Scorecard.

During the financial year, the Internal Auditors had conducted independent reviews and evaluated risk exposures relating to the Group's governance, operations and information system as follows:

- Reliability and integrity of financial and operational information
- Effectiveness and efficiency of operations
- Safeguarding of assets
- Compliance with set policies and procedures
- Identification of opportunities to improve the operations and processes
- Investigations and special audit reviews
- Adequacy and effectiveness of the Group's governance, risk management and internal control system using the Committee of Sponsoring Organisations of the Treadway Commission (COSO) Internal Control – Integrated Framework
- Compliance aspects of the Anti-Bribery and Corruption Policy and its programmes
- Disclosures of COI and potential COI situations involving the Directors and Key Senior Management
- Issuance of Statement of Assurance in relation to the Sustainability Statement

The Internal Auditors also established follow-up review to monitor and to ensure that internal audit recommendations are effectively implemented. Significant matters were reported directly to the Audit Committee and Senior Management to ensure improvement and corrective actions are taken.

The internal audit works had been carried out according to the internal audit plan approved by the Audit Committee for the financial year.

The Internal Auditors are updated on the improvement and development in internal auditing standards, procedures, techniques, corporate governance and the Listing Requirements through the attendance of seminars and talks organised by The Institute of Internal Auditors Malaysia, the Malaysian Institute of Accountants, Bursa Malaysia Berhad and the Securities Commission Malaysia as well as core competency courses organised by professional training institutions. The Audit Committee was also satisfied that pending the appointment of the new Group Chief Internal Auditor during the financial year, the Internal Audit Function was adequately overseen by a Senior Manager on an interim basis. Nevertheless, the Internal Audit Function, which is now led by the new Group Chief Internal Auditor and backed by 8 staff at the managerial and executive levels who possess the relevant qualifications and experience, has adequate resources to fulfil the internal audit plan for the next financial year.

The Internal Auditors had confirmed that they are free from any relationships or conflict of interest which could impair their objectivity and independence in their audit assignments.

The total cost incurred in managing the Internal Audit Function of the Group for the financial year was RM276,359.
